1. Product Requirements Document (PRD)

1.1 Purpose

Smart Hospital & Research Center is a web-based Hospital Management System (HMS) that gives administrative and clinical staff a single dashboard to run day-to-day hospital operations. It digitizes patient registration, outpatient and inpatient care, billing, pharmacy, diagnostics (pathology/radiology), blood bank, ambulance dispatch, human resources, finance, multi-branch oversight and public-facing website content, replacing paper registers and disconnected spreadsheets with one auditable system.

1.2 Objectives

- Provide a unified patient record spanning registration, OPD visits, IPD admissions, prescriptions and billing history.

- Streamline front-desk workflows: appointment booking, patient check-in, visitor logging and queue management.
- Automate the revenue cycle — charge capture, invoicing, discounts, tax, TPA/insurance claims and payment collection — across every clinical department.
- Give clinical support departments (pharmacy, pathology, radiology, blood bank, operation theatre) dedicated bill-generation and inventory tools.
- Support multi-branch hospital groups with consolidated overview, reporting and per-branch settings.
- Manage the workforce: staff directory, **duty** rosters, QR/biometric-style attendance, leave and payroll.
- Enforce role-based access control so each staff category only sees the functionality relevant to their job.
- Offer a broad reporting suite for financial, clinical and operational oversight, and manage the public website (Front CMS) from the same console.

1.3 Scope

This document covers the admin/staff-facing dashboard at demo.smart-hospital.in/admin as observed during a full navigational walkthrough on July 6, 2026. It includes every sidebar module, its list screens, add/edit forms, filters and settings. It excludes the separate patient self-service portal, the public marketing site pages themselves (only the CMS that manages them), mobile apps, and backend/API implementation details.

1.4 User Roles & Personas

The system ships with nine fixed system roles (Setup → Roles Permissions). Each role's access is controlled by a granular View/Add/Edit/Delete permission matrix, configurable per feature within every module.

Role	Persona Summary	Typical Responsibilities
Super Admin	Hospital owner / IT administrator	Full system access; configures branches, roles, system settings, integrations; visibility into every module.
Admin	Hospital operations manager	Day-to-day administration: patients, staff, billing oversight, reports; scope defined by assigned permissions.
Accountant	Finance / billing officer	Manages income & expense entries, invoices, payment collection and financial reports.
Doctor	Consulting physician / surgeon	Attends appointments, records OPD/IPD consultations, prescriptions, findings, vitals and operation notes.
Pharmacist	Pharmacy counter staff	Manages medicine stock and generates pharmacy bills against prescriptions.

Pathologist	Lab technician / pathologist	Processes pathology test orders, enters results, generates pathology bills/reports.
Radiologist	Imaging technician / radiologist	Processes radiology test orders, enters findings, generates radiology bills/reports.
Receptionist	Front-desk staff	Registers patients, books appointments, manages visitors, phone logs and front-office queries.
Nurse	Ward / nursing staff	Supports IPD care: vitals, nurse notes, ward/bed coordination.

The demo shows staff counts: Admin (1), Accountant (1), Doctor (4), Pharmacist (1), Pathologist (1), Radiologist (1), Super Admin (1), Receptionist (1), Nurse (2) — illustrating a small-hospital staffing model the system scales to.

1.5 Module Summary

Module	Core Feature Summary
Patient	Central patient registry; add/import patients, disabled/deceased flags, hospital-wide search.
Billing	Single-module billing hub routing to Appointment, OPD, Pathology, Radiology, Blood/Component Issue billing, plus Case ID lookup.
Appointment	Book/queue/track Today/Upcoming/Old appointments per doctor with charges, discounts and live-consultation flag.
OPD	Register outpatient visits with symptoms, consultant, charge capture and payment.
IPD	Admit inpatients to beds/wards with credit limit, consultant and discharge workflow.
Pharmacy	Generate pharmacy sale bills and manage the medicine catalog.
Pathology	Generate lab test bills, track previous report values, maintain test catalogs.
Radiology	Generate imaging bills with reference doctor/notes and maintain radiology catalogs.
Blood Bank	Track donors, blood issue and component issue by blood group, plus product catalog.
Ambulance	Log ambulance calls with vehicle/driver detail and fare billing.
Front Office	Visitor register, phone call log, postal complaints with configurable purpose/complaint lists.
Birth & Death	Register births (linked to mother/case) and deaths with printable reports.
Multi Branch	Cross-branch KPI overview, consolidated reports and branch onboarding/settings.
Human Resource	Staff directory (card/list, role filter), attendance, payroll and leave management.
QR Code Attendance	Camera-based QR/barcode attendance with auto-attendance & camera settings.
Duty Roster	Shift roster reporting and roster assignment per staff/date/shift.
Annual Calendar	Publish holidays, activities and vacations, optionally shown on the public site.
Referral	Referring persons, commission rules and per-invoice referral payments.

TPA Management	Maintain insurance/TPA partner records used across billing.
Finance	Record miscellaneous income and expenses against configurable heads.
Messaging	Notice board plus bulk SMS, Email and credential sharing.
Inventory	Non-pharmacy item stock, issuance, categories, stores and suppliers.
Download Center	Upload/share documents with staff groups, with content-type tagging.
Certificate	Generate OPD/IPD certificates, patient ID cards and staff ID cards from templates.
Front CMS	Manage the public website: pages, media, menus and banners.
Live Consultation	Schedule Zoom-based tele-consultations and live meetings.
Operation Theatre	Maintain operation categories/catalog; OT activity feeds reports.
Reports	19 report categories across finance, all clinical departments, HR, inventory, TPA, logs, patient activity.
Setup / Settings	General/system config, charges, beds, print templates, department catalogs, roles & permissions, users, custom fields.

2. Functional Requirements Document (FRD)

Each module lists the screens discovered during the walkthrough, their inputs/fields, actions/buttons, validations observed (fields marked * are mandatory in the UI) and the outputs produced.

2.1 Patient Management

Patient List (/admin/admin/search)

Aspect	Details
Inputs	Keyword search box; per-row checkbox selection
Actions	Add New Patient, Import Patient, Disabled Patient List, Delete Selected, per-row View/Edit/Delete, export (copy/Excel/CSV/PDF/print), page-size, pagination
Outputs	Patient Name, Age, Gender, Phone, Guardian Name, Address, Dead flag

Add Patient (modal)

Field	Type	Required
Name	Text	Yes
Guardian Name	Text	No

Gender	Select	No
Date Of Birth	Date	No
Age (yy-mm-dd)	3-part numeric	Yes
Blood Group / Marital Status	Select	No
Patient Photo	File upload (drag/drop)	No
Phone / Email / Address	Text	No
Remarks / Known Allergies / Previous Medical Issue	Textarea	No
TPA, TPA ID, TPA Validity	Select / Text / Date	No
National Identification Number, Alternate Number	Text	No

Action: Save. **Validation:** Name and Age enforced as required.

2.2 Appointment Management

Appointment List (/admin/appointment/index)

Aspect	Details
Tabs	Today, Upcoming, Old Appointment
Actions	Add Appointment, Doctor Wise Queue, export/print, search
Outputs	Patient Name, Appointment No, Created By, Date, Phone, Gender, Doctor, Source, Priority, Live Consultant, Alternate Address, Fees, Discount, Paid, Status

Add Appointment (modal)

Field	Type	Required
Patient / New Patient	Searchable select / shortcut	Yes (one of)
Doctor	Select	Yes
Doctor Fees (\$)	Auto numeric	Yes
Shift	Select	Yes
Appointment Date	Date	Yes
Slot	Select	Yes
Appointment Priority	Select (Normal)	No
Payment Mode	Select (Cash)	No
Status	Select	Yes

Discount Percentage	Numeric	No
Live Consultant (Video)	Select (No)	Yes
Message / Alternate Address	Textarea	No

Actions: Save, Save & Print. **Output:** appointment row with computed fee/discount/paid and status.

2.3 OPD – Out Patient

OPD List (/admin/patient/search)

Aspect	Details
Tabs	Today OPD, Upcoming OPD, Old OPD, Patient View
Actions	Add Patient (OPD visit), search, export/print
Outputs	OPD No, Patient Name, Case ID, Appointment Date, Generated By, Consultant, Reference, Symptoms, Is Antenatal, Previous Medical Issue, actions

Add OPD Patient (modal)

Field	Type	Required
Patient / New Patient	Searchable select / shortcut	Yes (one of)
Symptoms Type / Title / Description	Text / Textarea	No
Note, Known Allergies, Previous Medical Issue	Textarea	No
Appointment Date	Date	Yes
Case, Reference	Text	No
Casualty, Old Patient	Select (No)	No
Consultant Doctor	Select	Yes
Apply TPA	Checkbox	No
Charge Category, Charge	Select	Yes (Charge)
Standard Charge (\$)	Auto, read-only	—
Applied Charge (\$)	Numeric	Yes
Discount (%), Tax (%)	Numeric	No
Amount (\$)	Computed	Yes
Payment Mode, Paid Amount (\$)	Select / Numeric	Yes (Paid)
Live Consultation	Select (No)	No

Actions: Save, Save & Print. **Validation:** Consultant, Date, Charge, Applied/Paid required; Amount derived from Applied Charge, Discount, Tax.

2.4 IPD – In Patient

IPD List (/admin/patient/ipdsearch)

Aspect	Details
Actions	Add Patient (admission), Discharged Patient list, search, export/print
Outputs	IPD No, Case ID, Name, Gender, Phone, Generated By, Consultant Doctor, Bed, Is Antenatal, Previous Medical Issue, Credit Limit

Add IPD Patient / Admission (modal)

Field	Type	Required
Patient / New Patient	Searchable select / shortcut	Yes (one of)
Symptoms Type/Title/Description, Note, Previous Medical Issue	Text / Textarea	No
Admission Date	Date	Yes
Case, TPA, Reference	Text / read-only	No
Casualty, Old Patient	Select	No
Credit Limit (\$)	Numeric (default 20000)	Yes
Consultant Doctor	Select	Yes
Bed Group, Bed Number	Select (cascading)	Yes (Bed Number)
Live Consultation	Select (No)	No

Action: Save — creates admission and allocates the bed (status → Allotted). Related: Discharged Patient view.

2.5 Billing

Billing Dashboard (/admin/bill/dashboard)

Aspect	Details
--------	---------

Inputs	Module shortcuts: Appointment, OPD, Pathology, Radiology, Blood Issue, Blood Component Issue; Case ID search for OPD/IPD lookup
Actions	Open a module billing screen; Search by Case ID
Outputs	Routes to the relevant department bill screen or matched case bill

Billing is a hub — invoices are generated inside each department (OPD, IPD, Pharmacy, Pathology, Radiology, Blood Bank, Ambulance).

2.6 Pharmacy

Pharmacy Bill List (/admin/pharmacy/bill)

Aspect	Details
Actions	Generate Bill, Medicines (catalog), search, export/print
Outputs	Bill No, Case ID, Date, Patient Name, Generated By, Doctor, Amount, Discount, Tax, Net Amount, Paid, Refund, Balance

Catalogs (Setup → Pharmacy): Medicine Category (13 e.g. Syrup, Capsule, Injection, Tablet), Supplier, Dosage, Dose Interval, Dose Duration, Unit, Company, Medicine Group.

2.7 Pathology

Pathology Bill List (/admin/pathology/gettestreportbatch)

Aspect	Details
Actions	Generate Bill, Pathology Test (catalog), search, export/print
Outputs	Bill No, Case ID, Bill Date, Patient Name, Generated By, Reference Doctor, Previous Report Value, Amount, Discount, Tax, Net Amount, Paid, Balance

Catalogs: Pathology Category (6 e.g. Hematology, Clinical Chemistry, Molecular Diagnostics), Unit, Pathology Parameter.

2.8 Radiology

Radiology Bill List (/admin/radio/gettestreportbatch)

Aspect	Details
Actions	Generate Bill, Radiology Test (catalog), search, export/print

Outputs	Bill No, Case ID, Bill Date, Patient Name, Generated By, Reference Doctor, Note, Previous Report Value, Amount, Discount, Tax, Net Amount, Paid, Balance
---------	--

Catalogs: Radiology Category (10 e.g. X-Ray Chest PA, CT Chest Plain, MRI Cardiac with Contrast), Unit, Radiology Parameter.

2.9 Blood Bank

Blood Bank Status (/admin/bloodbankstatus/)

Aspect	Details
Tabs	Donor Details, Blood Issue Details, Component Issue
Outputs	Stock/status per blood group: B+, A+, AB-, AB+, O-, A-, B-, O+

Catalog (Setup → Blood Bank): Products — 14 items (blood-group units + components: Cryo, Red Cells, White Cells & Granulocytes, Plasma, Platelets).

2.10 Ambulance

Ambulance Call List (/admin/vehicle/getcallambulance)

Aspect	Details
Actions	Add Ambulance Call, Ambulance List (fleet), search, export/print
Outputs	Bill No, Case ID, Patient Name, Generated By, Vehicle Number, Model, Driver Name, Driver Contact, Patient Address, Date, Amount, Discount%, Tax%, Net Amount, Paid, Balance

2.11 Front Office

Visitor List (/admin/visitors)

Aspect	Details
Actions	Add Visitor, Phone Call Log, Postal Complain, search, export/print
Outputs	Purpose, Name, Visit To (IPD/OPD/Staff), Phone, Date, In Time, Out Time, actions

Catalogs (Setup → Front Office): Purpose (Visit, Inquiry, Seminar), Complain Type, Source.

2.12 Birth & Death Record

Birth Record (/admin/birthordeath)

Aspect	Details
Actions	Add Birth Record, export/print
Outputs	Reference No, Case ID, Generated By, Child Name, Gender, Birth Date, Mother Name, Father Name, Report

Death Record (/admin/birthordeath/death)

Aspect	Details
Actions	Add Death Record, export/print
Outputs	Reference No, Case ID, Generated By, Patient Name, Guardian Name, Gender, Death Date, Report

2.13 Multi Branch

Overview (/admin/multibranch/branch/overview)

Aspect	Details
Inputs	Time Duration filter (Today ... Last Year) or custom Period
Outputs	Per-branch KPI tables: Appointment, OPD, IPD, OT, Pharmacy, Pathology, Radiology, Blood Donor/Issue/Component, Ambulance, Birth/Death, Staff Attendance, Payroll, Transactions — compared across all branches

Report (/admin/multibranch/branch/report)

Consolidated cross-branch reports: Appointment, OPD, IPD, OT, Pharmacy, Medicine Expiry, Pathology, Radiology, Blood Issue, Component Issue, Blood Donor, Ambulance, Birth, Payroll, Income, Expense, Live Consultation, Transaction, Death.

Setting (/admin/multibranch/branch)

Action: Add New Branch. **Outputs:** Branch name/URL list with edit/delete.

2.14 Human Resource

Staff Directory (/admin/staff)

Aspect	Details
Inputs	Role filter (9 roles), keyword search
Actions	Add Staff, Card/List View, sub-tabs Staff Attendance, Payroll, Leaves
Outputs	Photo, Name, Staff ID, Phone, Department/Floor, Role badge

Add Staff captures personal details, role, department, designation, joining date and login credentials (consistent with Staff ID Card fields: Name, Designation, Department, Father/Mother Name, Date of Joining, Address, Phone, DOB).

2.15 QR Code Attendance

Attendance (/admin/qrattendance/attendance/index)

Live camera view "Scan Your ID Card QR Code / Barcode" for staff self check-in/out.

Settings (/admin/qrattendance/setting/index)

Field	Type	Required
Auto Attendance	Select: Disabled / Enabled	Yes
Select Camera	Select: Primary (Back) / Secondary (Front)	Yes

Action: Save.

2.16 Duty Roster

Shift Roster / Roster Report (/admin/dutyroster/roster_report)

Aspect	Details
Inputs	Time Duration or Period, Staff selector
Actions	Search; Assign Roster (sub-screen)
Outputs	Per staff: Date, Shift Start/End, Shift Hours, Shift name, Department, Floor

2.17 Annual Calendar

Holiday List (/admin/holiday/index)

Aspect	Details
Inputs	Type filter: Holiday / Activity / Vacation
Actions	Add, search, edit/delete
Outputs	Date (or range), Type, Description, Created By, Front Site flag, Action

2.18 Referral Management

Referral Payment List (/admin/referral/payment)

Aspect	Details
Actions	Add Referral Payment, Referral Person (catalog)
Outputs	Payee, Patient Name, Bill No, Bill Amount, Commission %, Commission Amount, Action

Setup → Referral: Referral Commission rules & Referral Category define default commission % per module (OPD/IPD/Pharmacy/Pathology/Radiology/Blood Bank/Ambulance) per category.

2.19 TPA Management

TPA Management (/admin/tpamanagement)

Aspect	Details
Actions	Add TPA, search, export/print
Outputs	Name, Code, Phone, Address, Contact Person Name, Contact Person Phone

TPA records feed the "Apply TPA" option on OPD/IPD/Patient forms.

2.20 Finance

Income List (/admin/income)

Aspect	Details
Actions	Add Income, search, export/print
Outputs	Name, Invoice Number, Date, Description, Income Head, Generated By, Amount

Expense List (/admin/expense)

Same structure using an Expense Head. Heads configurable under Setup → Finance (e.g. Hospital charges, Special campaign, Canteen Rent, Vehicle Stand Charges).

2.21 Messaging

Notice Board (/admin/notification)

Aspect	Details
Actions	Post New Message, Send SMS, Send Email, Send Credential
Outputs	Chronological feed of notices/campaigns (e.g. Blood Donation Camp, Doctor's Meeting, Appointment Reminder)

2.22 Inventory

Item Stock List (/admin/itemstock)

Aspect	Details
Actions	Add Item Stock, Issue Item, Item (catalog), search, export/print
Outputs	Name, Category, Supplier, Store, Date, Description, Total Quantity, Generated By, Purchase Price

Catalogs (Setup → Inventory): Item Category (12 e.g. Syringe Packs, Medical Equipment, Surgical Blades), Item Store, Item Supplier.

2.23 Download Center

Upload/Share Content (/admin/content/upload)

Lists uploaded documents with uploader and timestamp.

Content Share List (/admin/content/list)

Aspect	Details
Outputs	Title, Send To (Group), Share Date, Valid Upto, Shared By, Description, Action

Content Type (/admin/contenttype/)

Aspect	Details
--------	---------

Actions	Add Content Type
Outputs	Name, Description, Action (e.g. Medical Report, Medicine Stock List, Hospital Service)

2.24 Certificate & ID Cards

Generate Certificate (/admin/generatecertificate)

Field	Type	Required
Module	Select: OPD / IPD	Yes
Patient Status	Select: Not Discharged / Discharged	No
Certificate Template	Select (e.g. Sample Patient File Cover)	Yes

Actions: Search (filter patients), Generate (produce certificate).

Patient ID Card (/admin/generatepatientidcard/)

Select patients + ID Card Template, Search, Generate.

Staff ID Card (/admin/generatestaffidcard/)

Filter staff by Role + template, Search, Generate; output: Staff ID, Name, Designation, Department, Father/Mother Name, Date of Joining, Address, Phone, DOB.

2.25 Front CMS

Page List (/admin/front/page)

Aspect	Details
Sub-tabs	Media Manager, Menus, Banners
Actions	Add Page, edit/delete
Outputs	Title, URL, Page Type (Standard/Event/Gallery) — 14 pages incl. Home, Contact Us, Vision & Mission, FAQ, About, Meet Our Doctors, Testimonials, Departments, Events, Gallery

2.26 Live Consultation

Live Consultation (/admin/zoom_conference/consult)

Aspect	Details
Actions	Add, search, export/print
Outputs	Consultation Title, Description, Date, Api Used, Created By, Created For, Status, Action

Live Meeting (/admin/zoom_conference/meeting)

Aspect	Details
Outputs	Meeting Title, Description, Date, Duration (Minutes), Api Used, Created By, Status, Action

2.27 Operation Theatre

Operation (/admin/operationtheatre/index)

Aspect	Details
Sub-tabs	Operation Category
Actions	Add Operation
Outputs	Name, Category, Action — 8 samples across Plastic Surgery, ENT/Oral, Thoracic, Ophthalmology, Gynaecology, Urology

OT activity feeds Multi Branch Overview and the OT Report.

2.28 Reports

19 report categories, each expanding to specific report screens (filterable by date range/branch, exportable):

Category	Reports Included
Finance	Daily Transaction, All Transaction, Income, Income Group, Expense, Expense Group, Patient Bill, Referral, Processing Transaction, Balance Amount
Appointment	Appointment Report
OPD	OPD Report, OPD Balance Report, OPD Discharged Patient
IPD	IPD Report, IPD Balance Report, IPD Discharged Patient
Pharmacy	Pharmacy Bill Report, Expiry Medicine Report, Stock Report
Pathology	Pathology Patient Report, Pathology Balance Report
Radiology	Radiology Patient Report, Radiology Balance Report
Blood Bank	Blood Issue Report, Component Issue Report, Blood Donor Report

Ambulance	Ambulance Report
Birth Death	Birth Report, Death Report
Human Resource	Payroll Report, Payroll Month Report, Staff Attendance Report, Staff Day Wise Attendance Report
TPA	TPA Report
Inventory	Inventory Stock Report, Inventory Item Report, Inventory Issue Report
Live Consultation	Live Consultation Report, Live Meeting Report
Log	User Log, Email/SMS Log, Audit Trail Report
OT	OT Report
Patient	Patient Visit Report, Patient Login Credential

2.29 Setup / Settings

Setup underpins every module with master data and system configuration: **System Settings** (schsettings) and per-department **catalog/master** screens.

2.29.1 System Settings (/schsettings)

Tab	Purpose
General Setting	Hospital Name*, Code, Address*, Phone*, Email*, Logo/Small Logo, Language (9), Date Format, Time Zone, Currency & Symbol, Credit Limit, Time Format, Mobile App config, Doctor Restriction Mode, Superadmin Visibility, Patient Panel toggle, Scan Type (Barcode/QR), File Upload Path, Theme
Attendance Setting	Staff attendance rules
Notification / System Notification Setting	In-app and system notification behavior
SMS / Email Setting	Gateway/SMTP configuration
Payment Methods	Enable/configure accepted payment methods
Front CMS Setting	Public website configuration
Prefix Setting	Custom ID/number prefixes (OPDN, IPDN, invoice numbers)
Roles Permissions	Add Role + per-role View/Add/Edit/Delete matrix across every module & widget (Dashboard, Billing, Appointment, OPD, IPD, Pharmacy, Pathology, Radiology, Blood Bank, Ambulance, Front Office, Birth Death, HR, Duty Roster, Annual Calendar, Referral, TPA, Income...). 9 system roles.
Backup / Restore	Database backup and restore
Languages	Manage languages/translations

Users	Staff and Patient user accounts: (Patient) Id, Name, Username, Mobile, actions (139 patient users observed)
Captcha Settings	Login captcha configuration
Addons / Modules	Enable/disable optional add-ons and modules
System Update	Apply application version updates

2.29.2 Department Master Data

Setup Area	Master Lists Managed
Hospital Charges	Charge Category, Charge Type, Tax Category, Unit Type, Charges Details List (Name, Category, Type, Unit, Tax %, Standard Charge) used across all billing
Bed	Bed, Bed Type, Bed Group, Floor masters + live Bed Status grid (54 beds across floors, Available/Allotted)
Print Header Footer	Print template toggles + header/footer image & text editor for Appointment, OPD/IPD Prescription & Bill, Bill Summary, Pharmacy Bill, Payslip, Payment Receipt, Birth/Death, Pathology, Radiology, Operation, Blood Bank, Ambulance, Discharge Card, Antenatal Finding, Obstetric History
Front Office	Purpose, Complain Type, Source
Operations	Operation Category and Operation master
Pharmacy	Medicine Category, Supplier, Dosage, Dose Interval, Dose Duration, Unit, Company, Medicine Group
Pathology	Pathology Category, Unit, Pathology Parameter
Radiology	Radiology Category, Unit, Radiology Parameter
Blood Bank	Products (blood groups & components)
Symptoms	Symptoms Head (Type & Description) and Symptoms Type master
Findings	Finding (Category & Description) and Category master
Vitals	Vital List: Name, Reference Range, Unit
Zoom Setting	Live consultation/meeting API config
Finance	Income Head, Expense Head
Human Resource	Leave Types, Department, Designation, Specialist
Referral	Referral Commission rules, Referral Category
Appointment (Slots)	Doctor Shift/Shift, Appointment Priority, Slots builder (Doctor, Shift, Consultation Duration, Charge Category, Charge, Amount) + predefined Charge list
Inventory	Item Category, Item Store, Item Supplier
Custom Fields	Add Custom Field (Belongs To one of 22 entities e.g. Appointment/OPD/IPD/Patient/Pharmacy/Radiology/Staff; Type: Checkbox, Color/Date/Datetime Picker, Input, Hyperlink, Multi Select, Number, Dropdown, Textarea; Name;

	Grid width; Values; Required toggle; Visibility for Table/Print/Report/Patient Panel) — extends core forms without code
--	---

Cross-cutting observation: Almost every list screen shares one pattern — searchable/paginated table (page-size selector, "All"), export actions (Copy, Excel, CSV, PDF, Print), and row-level Edit/Delete — while every "Add" opens a modal form with client-side required-field validation (red asterisk) before Save.

2.30 Header Bar (Global Utility Functions)

The top header bar is present on every admin screen and provides quick, cross-module utilities in addition to the sidebar. From left to right: Language, Switch Branch, Notifications, Bed Status, Chat, Calendar/To-Do, Task, and Profile.

Language Switcher (flag icon)

Aspect	Details
Inputs	Dropdown list of 9 interface languages: English, Hindi, Spanish, Indonesian, Portuguese, Arabic, French, Turkish, Russian
Action	Selecting a language reloads the admin UI in that language

Switch Branch (arrows icon)

Aspect	Details
Inputs	Radio-button list of registered branches (e.g. Smart Hospital & Research Center – Home Branch, Your Hospital Name, Smart Hospital Branch 2)
Actions	Select a branch, then Update
Outputs	Switches the active working branch context for the whole session (data shown throughout the dashboard scopes to the selected branch)

Notifications (bell icon with unread count badge)

Aspect	Details
Entry point	Bell icon opens the full Notifications page (/admin/systemnotification)
Outputs	Table of Type (icon), Subject, Date; each row expands (chevron) to show full notification text, e.g. referral payment details, staff leave status/approval events
Actions	Expand/collapse a row, Delete All

Bed Status (bed icon)

Aspect	Details
Display	Full-screen overlay grouped by Floor (4th, 3rd, 2nd, 1st, Ground) then Ward/Bed Group (e.g. Non AC, Private Ward, General Ward Male, ICU, NICU)
Outputs	One bed icon per bed labeled with Bed Number when empty (green = Available) or Patient Name when occupied (pink/red = Allotted), giving an at-a-glance live occupancy map of the hospital
Actions	Close overlay (X); implied click-through to patient/bed record

Chat (message icon with unread count badge)

Aspect	Details
Entry point	Opens the full Chat System page (/admin/chat)
Inputs	Contact list (Staff and Patient conversations), message compose box
Actions	Start new chat (+), select a contact to view thread, type & send a message
Outputs	Real-time-style message thread per contact, with an unread-message counter shown on the header icon

Calendar (calendar icon)

Aspect	Details
Entry point	Opens the full Calendar page (/admin/calendar/events)
Inputs	Month / Week / Day view toggle, Today/Prev/Next navigation
Outputs	Calendar grid showing scheduled events/appointments (e.g. Vacation ranges, patient appointment slots)
Side panel	"To Do List" — checkbox-completable tasks with title, due date, edit (pencil) and delete (x) actions, plus an Add (+) button

Add Task (modal)

Field	Type	Required
Title	Text	Yes
Date	Date picker	Yes

Action: Save.

Task (checkmark icon)

Aspect	Details
Display	Small dropdown summarizing "Today you have N pending task(s)"
Actions	View All — links through to the same Calendar / To-Do List screen

Profile (avatar icon)

Aspect	Details
Dropdown	Shows logged-in user's photo, name and role (e.g. Super Admin), with links to Profile, Password and Logout
Actions	Profile → opens the full staff profile page; Password → opens Change Password modal; Logout → ends the session

Staff Profile Page (/admin/staff/profile/{id})

Aspect	Details
Header fields	Photo, Name, Staff ID, Role, Designation, Barcode, QR Code, Department, Specialist, EPF No, Basic Salary, Contract Type, Work Shift, Work Location, Date Of Joining; quick-edit (pencil) and change-password (key) icon shortcuts
Sub-tabs	Profile, Payroll, Leaves, Staff Attendance, Documents, Timeline
Profile tab fields	Phone, Emergency Contact Number, Email, Gender, Blood Group, Date Of Birth, Marital Status, Father Name, Mother Name, Qualification, Work Experience, Specialization, Note, Pan Number, National Identification Number, Local Identification Number, Reference Contact, Current Address, Permanent Address, Bank Account Details (Account Title, Bank Name, Bank Branch Name, Bank Account Number, IFSC Code), Social Media Links (Facebook, Twitter, LinkedIn, Instagram URLs)
Staff switcher	A menu icon on the profile page opens a side panel titled "Staff" with role tabs (Admin, Accountant, Doctor, ...) to quickly jump to any other staff member's profile

Change Password (modal)

Field	Type	Required
Password	Password	Yes
Confirm Password	Password	Yes

Action: Save.

Global Search Bar

Aspect	Details
Input	"Search By Patient Name" text box, always visible in the header

Action	Submitting the search navigates to the Patient List (/admin/admin/search) pre-filtered to matching patient names
Outputs	Filtered patient table (Name, Age, Gender, Phone, Guardian Name, Address, Dead flag) with the same row actions as the full Patient List

2.31 Role-Based Sidebar Navigation (Per-Role Access Comparison)

This section documents which sidebar modules are actually visible/accessible to each of the 9 system roles, captured by logging into the live demo as each role via the site's own public demo quick-login buttons (Super Admin, Admin, Doctor, Pharmacist, Pathologist, Radiologist, Accountant, Receptionist, Nurse - all using the password "password"). This complements the View/Add/Edit/Delete permission matrix in the Roles & Permissions setup screen by showing the resulting top-level navigation for each role.

2.31.1 Admin vs Super Admin

Aspect	Details
Sidebar parity	Admin's sidebar is nearly identical to Super Admin's - all clinical/operational modules (Patient, Billing, Appointment, OPD, IPD, Pharmacy, Pathology, Radiology, Blood Bank, Ambulance, Front Office, Birth & Death, Multi Branch, Human Resource, QR Attendance, Duty Roster, Annual Calendar, Referral, TPA, Finance, Messaging, Inventory, Download Center, Certificate, Front CMS, Live Consultation, Reports, Setup) remain visible.
Setup submenu difference	The Setup submenu for Admin does NOT list "Custom Fields", "Roles Permissions" or "Users" as dedicated sidebar links (these are present for Super Admin). However, Admin can still reach the same functionality via Setup > Settings tabs (which include a "Users" tab and a "Role" management tab), or by navigating directly to the /admin/roles URL.
Roles & Permissions restriction	On the Role List screen, Admin sees all 9 system roles, but the "Super Admin" row has no View-Permissions or Edit action icons - Admin cannot view or edit the Super Admin role's permission matrix. All other roles (including Admin's own) show both action icons.
Reports module	Same Reports categories available as Super Admin.

2.31.2 Sidebar Module Availability by Role

Legend: ✓ = module present in sidebar, blank = not present. "Super Admin" and "Admin" have access to the full module list (see 2.31.1); the table below focuses on the remaining 7 operational roles.

Module	Doctor	Pharmacist	Pathologist	Radiologist	Accountant	Receptionist	Nurse

2.31.3 Per-Role Notes

Role	Notes
Doctor	Focused on clinical modules: Patient, Billing, Appointment, OPD, IPD, Pathology, Radiology, Blood Bank, Ambulance, Birth & Death, Human Resource, QR Attendance, TPA Management, Messaging, Download Center, Live Consultation (Consult + Meeting), Reports (11 categories), Setup (Hospital Charges, Bed n/a, Print Header Footer, Pharmacy, Symptoms, Finance, Appointment). No Pharmacy sidebar item, no Front Office, Multi Branch, Duty Roster, Annual Calendar, Referral, top-level Finance, Inventory, or Front CMS.
Pharmacist	Narrow scope: Patient, Billing, OPD, IPD, Pharmacy, Blood Bank, Human Resource, Messaging, Download Center, Live Meeting, Reports (Pharmacy only), Setup (Hospital Charges, Print Header Footer, Pharmacy, Finance). No Appointment, Pathology, Radiology, Ambulance and most other modules.
Pathologist	Narrow scope similar to Pharmacist but centered on lab work: Patient, Billing, OPD, IPD, Pathology, Blood Bank, Human Resource, Messaging, Download Center, Live Meeting, Reports (Pathology, Blood Bank, Log), Setup (Print Header Footer, Pathology, Blood Bank, Finance).
Radiologist	Mirrors Pathologist's structure but for imaging: Patient, Billing, OPD, IPD, Radiology, Human Resource, Messaging, Download Center, Live Meeting, Reports (Radiology only), Setup (Hospital Charges, Print Header Footer, Radiology, Finance).
Accountant	Broadest of the non-admin roles: full clinical module set (Patient, Billing, Appointment, OPD, IPD, Pharmacy, Pathology, Radiology, Blood Bank, Ambulance, Human Resource, Referral, TPA Management, Finance with Income/Expenses sub-items, Messaging, Inventory) plus Download Center, Live Meeting, Reports (14 categories), and Setup (10 items including Settings, Hospital Charges, Bed, Print Header Footer, Pharmacy, Blood Bank, Finance, Referral, Appointment, Inventory). No Front Office, Birth & Death, Multi Branch, QR Attendance, Duty Roster, Annual Calendar, Front CMS, or Certificate.
Receptionist	Front-desk oriented, also broad: Patient, Billing, Appointment, OPD, IPD, Pharmacy, Pathology, Radiology, Blood Bank, Ambulance, Front Office, Birth & Death Record (Birth/Death sub-items), Human Resource, TPA Management, Messaging, Inventory, Download Center, Live Meeting, Reports (12 categories), Setup (Bed, Print Header Footer, Front Office, Finance, Appointment). Unique to Receptionist among non-admin roles: Front Office and Birth & Death Record sidebar items.
Nurse	Most restricted role: Dashboard, Patient, OPD, IPD, Human Resource, Messaging, Download Center, Live Meeting, Reports (OPD, IPD, OT, Patient only), Setup (Bed, Finance only). No Billing, Appointment, Pharmacy, Pathology, Radiology, Blood Bank, or Ambulance sidebar items.

Note: presence of a module link in the sidebar reflects navigation-level access as observed during this walkthrough; the underlying View/Add/Edit/Delete rights for each module are governed independently by the Roles & Permissions matrix documented in the Setup / Roles Permissions section.
